Why Choose Us

We work with small - big businesses to provide reliable and affordable IT solutions that scale as you start to grow your business.

No job is too small for us. Whether you're a start-up, a solopreneur, or a growing small business, we can provide you with a range of solutions.

There are 3 Important Reasons why we are the best...

Creativity

Client objectives coupled with customer usability form the backbone of our application design and development. We're a creative company delivering well-designed and developed websites, mobile, and software. Over the years we've established ourselves as one of the top IT companies.

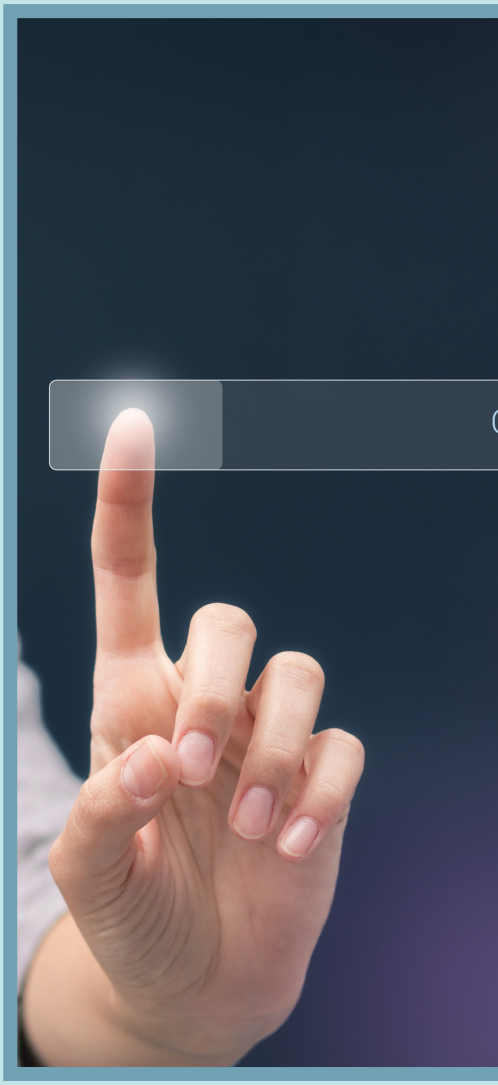
We pay attention to details and create pixel-perfect layouts that will surely make your application stand out from the crowd. There are many design layouts included in TechnoTronixs that provide you with endless options for displaying your content in a new, efficient, and eye-catching way.

Experienced

At TechnoTronixs we have more than 10 Years of experience when it comes to providing MLM Software, Website designing, Web Applications, Customized Software, and Mobile Application (Android app or Ios App) development solutions.

Skilled

TechnoTronixs success and growth are a direct result of building a successful long-term relationship with our clients. We believe that we are not just suppliers to our clients, but partners. Our company history reveals that up to 70% of our business comes from our clients and that 90% of these clients have been with TechnoTronixs for a period exceeding 4 years.



Our Vision

No matter which industry you belong to, every business must become digital

TechnoTronixs is one of the prominent software companies that helps other organizations to transform into digital enterprises. It differentiates you from competitors in the market and provides better engagement with customers, partners, and employees.

We clearly understand that all customer landscapes are not of the same kind. That's why TechnoTronixs sourcing methodology encompasses a clear solution especially crafted to address the clients' issues. We offer a phased approach towards your business drivers and help IT organizations to align their goals towards the overall vision of the business

Our main aim is to develop constantly and become a leading performer in this competitive global marketplace. Fortunately, we have been able to gather a crew of professionals that can shape and mold their collective experiences, all of them possess outstanding talent that can help to accelerate your organization.

Our Mission

To assist our clients to design and implement customized practical solutions in improving the performance of their businesses and people within

Our mission is to deliver optimal solutions with top quality and the best services at affordable prices. In Our Business Policy Customer satisfaction is given top priority. Our team is very friendly in dealings with the customers and it helps us to retain lifelong relationships with our existing clients and expand our customer circle worldwide. We always try to improve the quality of our products by exploring innovative ideas and new techniques.

We always try to enhance the efficiency, productivity, and capability of businesses by delivering services above &beyond industry values and customer expectations. We allow businesses to expand their boundaries by making innovative &impeccable business partnerships with us; our innovative ideas & cutting-edge solutions make outsourcing works for them.

We visualize our organization to be the first and the last stop for businesses across the globe seeking long-term success and prosperity with the help of our team.

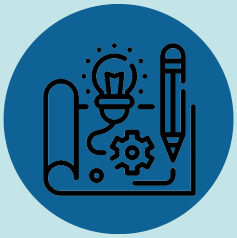
How We Do

A fresh approach to technical services for entrepreneurs...

Understanding

Initially, we suggest some ideas from clients' specifications that are somewhat vague. To develop these ideas into substantial apps or websites, we create proposals after asking some queries, what and why?



Prototyping

Prototyping is necessary, with this we can visualize how the actual app will work. Generally, to enable visualization, we employ wireframes because it will give you clear idea about how the project will work or how the app is going to look and work on different mobile devices.

Visualization

Once we have all the information along with appropriate wireframes, we have exhaustive deliberations with the client about how we plan to approach the project. A collaborative approach guarantees customer-centric app development.

Development

We begin with programming process in stages or iterations. Each stage will set the pace for subsequent iteration. It helps in making further plans more carefully. Our key to deliver successful results is to keep the processes simple which also helps our managers monitor development progress.

Testing

Comprehensive testing is deployed on the appropriate smartphone to ensure the app works perfectly, without any hitch. From to content, we everything thoroughly product delivery.

Release

The most awaited and important step! In this phase, the mobile app is submitted to the app store so that it is available for download. Following the guidelines of all the app stores and submission cycles, our developers ensure that the apps smoothly sail through the review process.

Technology Used

Project Overview

Daily Mart is a complete Multi-vendor Food, Grocery, eCommerce, Pharmacy, or any kind of products delivery system developed using Laravel and Flutter Framework. Daily Mart's Powerful admin panel will help you to control your business smartly.

Daily Mart comprises of 3 Mobile Applications, 2 Web Panel, and 1 website – Customer application for Android, iOS, and web developed using Flutter. Delivery Boy application for Android developed using Flutter (Need to purchase separately).

Store application for both Android and iOS developed using Flutter (Need to purchase separately).

Super Admin web panel developed using Laravel (admin can provide role-based access).

Store web panel developed using Laravel (owner can provide role-based access).

Project Features

Order Flow (Happy Path)

- The customer places an order from a store (can't place an order from multiple stores at a time)
- The delivery boys get that order in the order request section and accept it for delivery.
- After the delivery man's confirmation (If turn on the delivery confirmation model), the store owner gets the order on their dashboard and starts processing or cooking, and hands over the items to the delivery boy.
- If the order is digitally paid the order will directly go into the confirmed status and the store gets the order on their dashboard (will not depend on the delivery boy's confirmation).
- If the admin turn on the store's confirmation model then for both case no need for the delivery man's confirmation but after the store, confirmation delivery man will get the order for acceptance.
- The Delivery Guy accepts the order, confirms the order (if COD), picks up the order, and delivers the order to the Customer.
- If self-pickup orders, the stores will manage all the steps.
- For scheduled orders, all the operations will start 15 minutes after the scheduled delivery time.

Top Features:

- **Draw accurate coverage area on the map:** In the admin panel, you can manage multiple zones for your business coverage area. The map drawing tool will help you to draw your coverage accurately. Stores can be added to these zones. Only the users who are in coverage can order.
- **System Modules:** Daily Mart is designed for all types of delivery but we categorize it as a system module.
- **Multiple Stores:** Daily Mart is a multi-vendor-supported system. So you can add an unlimited number of stores and manage those from the admin panel easily.
- **SMS OTP integrated: Daily Mart comes with a bunch of integrated SMS Gateways. All of them are popular and you can verify your users in a smarter way.**

- **Item Management:** You can control the whole Item section by managing categories and subcategories, Attributes, Add-on, Units, and more. You can add items to any store. And the Stores panel also will get an item management feature.
- **Advanced Order Management:** Daily Mart item order management feature will help the admin and the store manager to manage every order very efficiently.
- **Dispatch Management:** Dispatch Management will help you to identify quickly which orders are ongoing and which orders are waiting for a delivery man.
- **Delivery Men Apps:** You can create an unlimited number of delivery men and by Delivery men apps they can easily accept an order, deliver an order and earn money. You can set the Freelancer delivery man option or the Salaried delivery man option from the admin panel.
- **Manual assign delivery man:** Daily Mart admin panel will provide you with another important feature for your business. You can directly assign an available delivery man in order.
- **Marketing Section:** Daily Mart Admin will provide you with a very rich admin panel where you can control all the major things for marketing. Campaigns, banners, Coupons and Push notifications features will help you to grow your business very fast.
- **Accounts section:** You can view stores and deliver men's earnings, process withdrawals, collect cash manually and have lots of staff.
- **Reporting and Statistics:** Full of statistics and reporting will help you identify your business cash flow and all the financial conditions. In the dashboard, You will get very rich statistical data and you can explore those by zone and time.
- **Employee Section:** Daily Mart Admin and Store panel both have employee sections. Where you can create a new employee role and access your employee to your Daily Mart portal easily.
- **Business Setting:** Business Settings will help you to set up your business as you wish. You will get lots of configurations to make your business unique.
- **Complete Featured User App and Web:** You will get the Daily Mart mobile app and web source code with this bundle. We developed this by flutter so the app can be usable on both android and iOS.
- **Multiple Payment Gateways:** Daily Mart comes with a bunch of integrated payment gateways. All of them are popular and you can start your business immediately.
