Why Choose Us

We work with small - big businesses to provide reliable and affordable IT solutions that scale as you start to grow your business.

No job is too small for us. Whether you're a start-up, a solopreneur, or a growing small business, we can provide you with a range of solutions.

There are 3 Important Reasons why we are the best...

Creativity

Client objectives coupled with customer usability form the backbone of our application design and development. We're a creative company delivering well-designed and developed websites, mobile, and software. Over the years we've established ourselves as one of the top IT companies.

We pay attention to details and create pixel-perfect layouts that will surely make your application stand out from the crowd. There are many design layouts included in TechnoTronix that provide you with endless options for displaying your content in a new, efficient, and eye-catching way.

Experienced

At TechnoTronix we have more than 10 Years of experience when it comes to providing MLM Software, Website designing, Web Applications, Customized Software, and Mobile Application (Android app or Ios App) development solutions.

Skilled

TechnoTronix success and growth are a direct result of building a successful long-term relationship with our clients. We believe that we are not just suppliers to our clients, but partners. Our company history reveals that up to 70% of our business comes from our clients and that 90% of these clients have been with TechnoTronix for a period exceeding 4 years.

Our Vision

No matter which industry you belong to, every business must become digital

TechnoTronix is one of the prominent software companies that helps other organizations to transform into digital enterprises. It differentiates you from competitors in the market and provides better engagement with customers, partners, and employees.

We clearly understand that all customer landscapes are not of the same kind. That's why TechnoTronix sourcing methodology encompasses a clear solution especially crafted to address the clients' issues. We offer a phased approach towards your business drivers and help IT organizations to align their goals towards the overall vision of the business

Our main aim is to develop constantly and become a leading performer in this competitive global marketplace. Fortunately, we have been able to gather a crew of professionals that can shape and mold their collective experiences, all of them possess outstanding talent that can help to accelerate your organization.

Our Mission

To assist our clients to design and implement customized practical solutions in improving the performance of their businesses and people within

Our mission is to deliver optimal solutions with top quality and the best services at affordable prices. In Our Business Policy Customer satisfaction is given top priority. Our team is very friendly in dealings with the customers and it helps us to retain lifelong relationships with our existing clients and expand our customer circle worldwide. We always try to improve the quality of our products by exploring innovative ideas and new techniques.

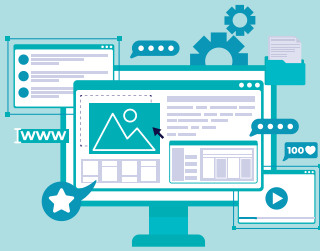

We always try to enhance the efficiency, productivity, and capability of businesses by delivering services above & beyond industry values and customer expectations. We allow businesses to expand their boundaries by making innovative & impeccable business partnerships with us; our innovative ideas & cutting-edge solutions make outsourcing works for them.

We visualize our organization to be the first and the last stop for businesses across the globe seeking long-term success and prosperity with the help of our team.

How We Do

A fresh approach to technical services for entrepreneurs...

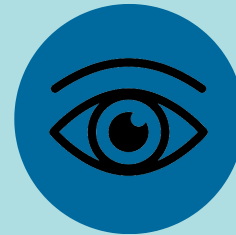

Understanding

Initially, we suggest some ideas from clients' specifications that are somewhat vague. To develop these ideas into substantial apps or websites, we create proposals after asking some queries, what and why?

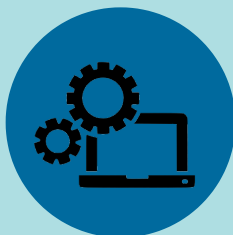

Prototyping

Prototyping is necessary, with this we can visualize how the actual app will work. Generally, to enable visualization, we employ wireframes because it will give you clear idea about how the project will work or how the app is going to look and work on different mobile devices.

Visualization

Once we have all the information along with appropriate wireframes, we have exhaustive deliberations with the client about how we plan to approach the project. A collaborative approach guarantees customer-centric app development.

Development

We begin with programming process in stages or iterations. Each stage will set the pace for subsequent iteration. It helps in making further plans more carefully. Our key to deliver successful results is to keep the processes simple which also helps our managers monitor development progress.

Testing

Comprehensive testing is deployed on the appropriate smartphone to ensure the app works perfectly, without any hitch. From content, we everything thoroughly product delivery.

Release

The most awaited and important step! In this phase, the mobile app is submitted to the app store so that it is available for download. Following the guidelines of all the app stores and submission cycles, our developers ensure that the apps smoothly sail through the review process.

Technology Used

Project Overview

**iRestora** PLUS

Next Gen Restaurant POS

Recipe Management

Stock Auto Deduct by Recipe

Kitchen, Bar, Waiter Panel

CRM, SMS, Veg & Bar Item Filter

Migration easy software

iRestora PLUS is a restaurant POS software, especially having Smart Stock System that helps a restaurant owner protect his Stock from being stolen or misused. This software is specially designed for restaurants by keeping RESTAURANT NEEDS in mind.

iRestora PLUS understands that:

1. You need to protect your Stock from stealing or misusing to prevent loss
2. Your customer orders first then eats and then pays
3. Your customer may modify his order in the middle of eating/processing
4. When an order is modified, your kitchen needs to know only modified items
5. You need to prevent modifying an order that is under process or done
6. Your customer may ask about order progress and you need to know & answer him quickly
7. Sometimes waste happens and those needs to be considered as loss and deducted from stock
8. You may have Bar alone in your Kitchen
9. You purchase in due sometime and frequently pay your supplier
10. You need to place an order very quickly, the less time it takes, the more customers you serve
11. You need to have some accessible facility to switch to iRestora PLUS from your legacy software
12. You may collect pre-payment or post-payment from your customer

These are not all, iRestora PLUS did not leave any other features to include which are also important and happens in a restaurant.
